

County/Provider Partnerships

Disaster Preparedness &
Long-Term Care Bed Reporting

Scott J. Tarde, L.N.H.A.

How did we get here?

- Series of meetings bringing providers together after the 2007 San Diego County Wildfires.
- San Diego County Debriefing
- CAHF Disaster Preparedness Meeting – coordinated by Jocelyn Montgomery

The Vision...

- A system that accounted for all available beds in the long-term care community in the event of a disaster.
- Ideas ranged from a web-based self reporting program to contracted services (e.g., ReddiNet)
- Communication, Communication, Communication

Influential in the process...

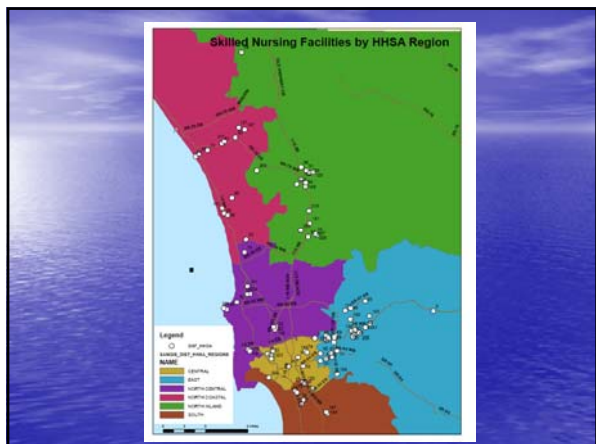

- Bruce Haynes, M.D.
San Diego County Medical Director
- Pauline Thomas, RN, CEN -
Quality Assurance Specialist
*Disaster Medical & Health Emergency
Preparedness*
- Formed a County SNF Disaster
Preparedness Task Force

Brainstorming...

- SNF Task Force brought together
representatives from San Diego County
EMS, local long-term care providers and
representatives from CAHF
- Charged with developing a viable system
to communicate available long-term care
beds within San Diego County back to the
Medical Operations Center (M.O.C.)

The result...

- 6 original areas
- Expanded to 7
- 7 Area Coordinators (AC) volunteered to
represent the 91 SNF's in the County
- AC's will work with all facilities in their areas and
report back available LTC beds to the M.O.C. in
the event of a disaster.
- SNF representation at the M.O.C. (on call
schedule)

Going forward...

- A viable framework has now been established to coordinate mass LTC evacuations between providers within the County!
- The M.O.C. will coordinate evacuations directly with facilities based on information provided from the 7 Area Coordinators about bed availability.
- The M.O.C. already has the capability of tracking impacted disaster areas and now has SNF's on their mapping system.
- CDPH kept advised of Task Force progress

Going forward...(continued)

- Area Coordinators trained on NIMS
- MOA developed between 91 SNF's
- 65% signed to date!
- Satellite Phones provided to Area Coordinators
- Communication applied to H1N1 and other SNF related matters.

Getting Started...

- County Involvement
- Interested in becoming a Area Coordinator?
- A commitment from each facility to participate
- Taking that first step...
- "By failing to prepare, you are preparing to fail" – Benjamin Franklin
